

Pension news

for pensioner members

October 2022

**Cummins UK
Pension Plan**

Welcome

Welcome to the autumn issue of *Pension news*, the newsletter for pensioner members of the Cummins UK Pension Plan.

As a result of recent global and economic events, the rising cost of living is adding pressure to household incomes. You may be worried about the impact this is having on the Plan and your pension. As you know, this is a defined benefit plan, which means the Trustee is responsible for paying your pension based on your salary and length of service, and it is not dependent on market performance. The Trustee has a carefully diversified investment strategy which helps to protect the Plan from the extreme impacts of market volatility.

The most recent actuarial valuation of the Plan looked at the position as at 1 January 2021, when the funding level was 104%. The actuary has since carried out an annual update looking at the position as at 1 January 2022, and you can read the results of this in the summary funding statement on page 12.

This year's nomination day on 1 July was a great success. Thank you to everyone within five years of retiring who recently reviewed or updated their nominated beneficiaries on the Plan website via **Manage my pension**.

An up-to-date nomination really does make all the difference to the Trustee when dealing with the benefits of members who have died. It allows us to pay any benefits that are due to your loved ones without unnecessary delays.

Finally, I hope you enjoy reading this issue of *Pension news* and find it useful. If you would like to know more about a particular topic in a future issue, please get in touch.

Nichola Moore
Chair of the Trustee

Looking after your personal data

Making sure that your personal data is secure is of utmost importance to us. We've recently updated the Plan's privacy notice, and you can find it on the Plan website at: www.cumminsukpensions.co.uk/privacy

New branding for Premier **isio.**

Premier, the Plan administrator, is now part of Isio. You'll usually receive communications from the Plan rather than directly from Premier. However, please note that from time to time, you may get communications from Premier which will carry the new Isio branding from 1 October 2022.

In the pipeline...

In last October's *Pension news*, we told you about a new requirement for larger pension schemes like ours to report on climate change and their investments. This includes the risks and opportunities presented by rising temperatures, climate-related policy, and emerging technologies in our changing world. Driven by the task force on climate-related financial disclosures (TCFD), there are detailed guidelines on the information that needs to be covered. We'll be starting work on our climate change report for the Plan very soon and look to publish this next year on the Plan website.

Updating our Plan website

Next year, we'll be making some changes to the Plan website to bring you new functionality, better navigation and generally make it even easier to learn about your pension and how to make the most of your Plan membership.

Running the Plan

The Plan is looked after by a Trustee board which has 14 directors (listed below): seven appointed by the Company and seven who are nominated by the Plan's members.

Anthony Waller
Bernadette Daley
Emily Chapman*
Gloria Griesinger
Ian Smith*
James Guilfoyle
James Guyett*
Lisa Thornton
Martin Bruniges*
Natalie Morton*
Nichola Moore, Chair
Paul Bennett
Stephen Coughlan*
Stuart Stubbings*

*member-nominated
directors (MNDs)

The Plan has three sub-committees which focus on communications, governance and investment.

- Communications sub-committee (CSC): provides clear, engaging pensions information to members.
- Governance sub-committee (GSC): ensures that the Trustee's processes comply with the Pensions Regulator's expectations, legal requirements and good business practice.
- Investment sub-committee (ISC): advises the Trustee on strategic investment, risk management and covenant issues. It reviews the providers we use to help us.

Meet our new MND

In March 2022, following a selection process, we welcomed a new MND, Stuart Stubbings, to the Trustee board. Stuart is IT Director in DBU for Europe & Latin America and has worked at Cummins for over 35 years.

Why did you want to become a Trustee?

It's been on my mind for the last five years or so, however my previous role involved a lot of travel, and I wouldn't have been able to commit to the Trustee meeting schedule. Now I have a role with less travel, so I applied. I'm interested in financial planning, and this is an opportunity to develop that into something tangible for myself and others in Cummins.

What interests you about pensions?

Pensions are crucial to prosperity in our later years but seem quite complex to navigate. I'm keen to learn more about how pensions work.

What do you think is the greatest challenge for workplace pension schemes?

Helping members understand the importance of pension planning at an early age – care and attention on a few basic

decisions could have a big impact on your benefits when you're ready to take them.

What was your dream job as a child?

I wanted to be a fighter pilot, but I recall being put off by the recruiting officer at the RAF careers office in Peterborough so didn't pursue it. Since then, I've been lucky enough to work at Cummins in many varied roles and travel the world, so I've still been able to fly – the only difference is that I've been sat in the back of the plane rather than flying it!

What do you like to do in your spare time?

Outside work, I play football for fun in a group of 'lads & dads'; I have an interest in music, including a reasonable collection of electric guitars; and I'm in the process of restoring and maintaining an old Land Rover Defender 90 with my son.

Wellbeing matters

Making it easier to get a free TV licence

It will become easier for pensioners on low incomes to apply for or renew their free TV licence.

Under new plans, the BBC will be able to verify automatically whether a person applying for a free TV Licence is on Pension Credit with the DWP. In most cases, the 7,000 people who apply for a free licence each month will simply need to apply online or over the phone without any need to supply additional paperwork. The changes to the application process will come into effect next year.

Help with the cost of living

More than eight million households will receive a payment of up to £650 this year, made in two instalments to help with the rise in the cost of living. This may include you if you currently receive pension credit and the benefit will be paid automatically, you don't need to do anything or apply for the payment at any stage.

Winter fuel and disability payments

Nearly one in ten people will get the £150 disability payment this autumn, and over 8 million pensioner households could get an extra £300 from winter fuel payments in November and December. The disability and pensioner payments come in addition to any cost-of-living payment.

Useful contacts

If you're feeling anxious or struggling to cope with loneliness, as well as talking to your GP, you may find the following support services useful:

www.ageuk.org.uk

0800 678 1602 (8am to 7pm daily)
Age UK offers befriending services, information and advice for older people.

www.mind.org.uk/about-us/local-minds

Local Minds provide mental health services in local communities across England and Wales.

www.anxietyuk.org.uk

Anxiety UK has a helpline and lots of information which include some webinars to help learn some tools for dealing with your mental health.

Accounts and amounts

The year at a glance...

As at 31 December 2021, the Plan was worth **£1.8 billion**

The Plan paid benefits to members worth **£37.5 million**

Financial highlights

	2021 £'000	2020 £'000
Plan value at the start of the year	1,722,597	1,530,952
Money in less money out	(8,230)	(8,656)
Change in market value	72,856	200,301
Plan value at the end of the year	1,787,223	1,722,597

Where are the assets invested?

The chart shows the allocation of the Plan's assets as at 31 December 2021.

	2021	2020
● Equities	12.1%	10.4%
● Real estate	0.9%	0.8%
● Private equity	16.3%	11.2%
● Fixed income	11.2%	12.9%
● Liability matching	51.6%	57.0%
● Alternatives	7.0%	6.8%
● Cash	1.2%	0.8%

Figures may not sum to 100% due to rounding.

Summary funding statement

This statement explains the funding that supports your benefits in the DB Section of the Plan. It tells you about the longer-term outlook for the DB Section and the substantial financial support the Company provides.

The latest position

A full valuation of the Plan is usually carried out every three years, with annual updates being completed in the intervening years. The valuation compares the assets that are held with the amount of money that it is expected will be needed to provide members' benefits. Any shortfall between the amount held and that which is needed is then met by the payment of extra contributions from the Company.

The table below shows the results from the most recent formal valuation of the Plan as at 1 January 2021 and the subsequent annual update as at 1 January 2022.

	Update 1 January 2022	Valuation 1 January 2021
Value of assets*	£1,776.2m	£1,713.2m
Amount needed to provide benefits (liabilities)	£1,619.9m	£1,650.2m
Surplus	£156.3m	£63.0m
Funding level	110%	104%

*Not including additional voluntary contributions or DC Section assets.

Changes since the previous statement

The valuation at 1 January 2021 showed the Plan had a surplus of £63 million and a funding level of 104%. The update at 1 January 2022 showed the surplus had increased to £156.3 million, giving a funding level of 110%.

Over the year, the main reasons for the improvement in the funding position are:

- better-than-expected investment returns
- a reduction in the value of the liabilities.

These factors were partially offset by an increase in the expectations of long-term inflation and an allowance for membership experience.

How is my pension paid for?

The Company pays regular contributions into the Plan to meet the cost of pensions and other benefits that will become due in the future – for example, as and when people retire. Active members are also required to contribute to the cost of their benefits by making contributions directly from their pre-tax pay or via SMART (the salary sacrifice arrangement).

The Plan has both a DB Section and DC Section. Unlike the DC Section, members of the DB Section don't have individual accounts. Instead, the money paid into the Plan is held in a common fund which the Trustee manages on behalf of all the DB members.

How do you work out how much the Plan needs?

The Trustee obtains regular formal valuations of the Plan to estimate the value of the benefits that members have earned up to the date of the valuation. Using this information, the Trustee comes to an agreement with the Company on the levels of contributions that need to be paid to help ensure that the Plan has enough funds available to pay the benefits promised to members when they are due.

Summary funding statement (continued)

The importance of the Company's support

One of the Trustee's main objectives is to have enough money in the Plan to pay pensions both now and in the future. However, the success of the Plan relies on the support of the Company because:

- the Company will be paying the future cost of running the Plan on an annual basis
- the funding level can fluctuate and at times when there is a shortfall of assets, the Company will usually be required to pay more into the Plan
- the target funding level may not turn out to be enough so the Company may need to put more money into the Plan.

Company contributions in respect of future accrual

It was agreed that the Company will make a payment of £65 million during February 2023 to cover the cost of future benefit accrual, ongoing running costs of the Plan and the cost of PPF levies over the period from January 2022 to December 2024. In addition, the Company will also pay

any contributions that are due in respect of members participating in SMART pensions and any life assurance premiums (paid directly to the insurer, rather than through the Plan).

The Company continued making contributions to cover the above costs in line with the 2018 valuation agreement up to 31 December 2021 (where future benefit accrual was equivalent to 53.6% of pensionable salaries).

The contributions will be reviewed at the next full actuarial valuation, which must take place no later than 1 January 2024.

Payments to the Company

In accordance with legal requirements, we can confirm that there have not been any payments to the Company out of Plan funds since the last summary funding statement, nor has the Pensions Regulator used any of its powers in relation to the funding of the Plan or benefits provided by it.

What would happen if the Plan was wound up?

Please note that we've included this information because we're required to do so by law – it shouldn't in any way be taken to imply that the Company is intending to wind up

the Plan. It's both the Trustee's and the Company's intention that the Plan should be continued on an ongoing basis, with pensions being paid in full to members as and when they reach retirement. In the unlikely event that the Plan was wound up, benefits would be secured by buying insurance policies with an insurance company.

The solvency position

The valuation as at 1 January 2021 also looked at the position of the Plan if it had been wound up and the benefits secured by buying annuity policies with insurance companies. If this were to be the case, the estimated shortfall at 1 January 2021 was around £247 million. At 1 January 2022, the estimated shortfall had reduced to £56 million.

These are shortfalls rather than the surplus figures shown on page 12, reflecting the fact that insurers are obliged to take a more cautious view of the future and need to make a profit.

There's also a safety net that provides some level of compensation for members who are in the unfortunate position of being in a pension scheme that's being wound up with insufficient assets.

Very broadly, the safety net, which is known as the Pension Protection Fund (PPF), provides members who haven't yet retired with 90% of their expected benefits and 100% for anyone who is over normal retirement age. Future increases to pensions are also at a lower level in the PPF.

As the Plan's assets are likely to have covered the Section 179 (PPF) liabilities as at 1 January 2021 but were less than the estimated cost of securing benefits with an insurer, the Plan would probably not have qualified for entry to the PPF had the Company become insolvent at 1 January 2022, in which case members would have received more than the PPF compensation.
